Confluence keeps certain activities of its business units separate from each other in order to preserve the independence and objectivity of their respective activities. As a result, certain business units of Confluence may have information that is not available to other Confluence business units. Confluence has established policies and procedures to maintain the confidentiality of certain non-public information received in connection with each analytical process. Confluence may receive compensation for its ratings and certain analyses. Confluence reserves the right to disseminate its opinions and analyses. At times, Confluence's public ratings and analyses are made available on its website (www.ConfluenceAnalytics.com) and may be distributed through other means, including via Confluence-issued publications and third-party redistributors. This material is not intended as an offer or solicitation for the purchase or sale of any security or other financial instrument. Securities, financial instruments or strategies mentioned herein may not be suitable for all investors. Any opinions expressed herein are given in good faith, are subject to change without notice, and are only correct as of the stated date of their issue. Prices, values, or income from any securities or investments mentioned in this report may fall against the interests of the investor and the investor may get back less than the amount invested. Where an investment is described as being likely to yield income, please note that the amount of income that the investor will receive from such an investment may fluctuate. Where an investment or security is denominated in a different currency to the investor's currency of reference, changes in rates of exchange may have an adverse effect on the value, price or income of or from that investment to the investor. The information contained in this material does not constitute advice on the tax consequences of making any particular investment decision. This material does not take into account your particular investment objectives, financial situations or needs and is neither intended as a recommendation of particular securities, financial instruments or strategies to you nor is it considered to be investment advice. Before acting on any information in this material, you should consider whether it is suitable for your particular circumstances and seek professional advice.

Main Takeaways 2Q23

- **Lower Ranked ESG Stocks and Signals without Carbon Outperformed Higher ranked stocks on average**
- **Signals that Incorporate Carbon (Signal 3) showed the highest ranked stocks (top two quartiles) outperformed those ranked lower (bottom two quartiles)**
- **We highlight the highest and lowest risk stocks with our signals. Please reach out for a list of specific companies.**

ESG Signals June YTD – US Large Caps

Through June, consensus ESG ranks and our signals that do not incorporate carbon all show bottom ranked stocks on average outperforming.

Our Carbon Signal 3 metric shows a better pattern for long only and long/short managers.

ESG vs. YTD Return

Low ranked ESG stocks were up on average YTD more than the higher ranked stocks.

Nvidia (NVDA) has been a leader across the board, but the average high ranked ESG stock has lagged the overall benchmark.

Carbon Signal 3 vs. YTD Return

Carbon Signal 3 mixes Carbon, ESG and residual returns to make a forecast of future returns. The ranking system on the X-axis is the result of this process

ESG Signal Risk Matrix – More Risk

Above, we combine our signals into a matrix and focus in on the largest companies in the US Large Cap Universe.

We highlight a number of companies that should underperform the market: NFLX, XOM, TSLA, MCD, META, AMZN, etc.

Close-up of Lowest Risk Large Caps

Zooming into the upper quadrant of our ESG Signal matrix reveals a diverse mix of household names with a bias towards tech

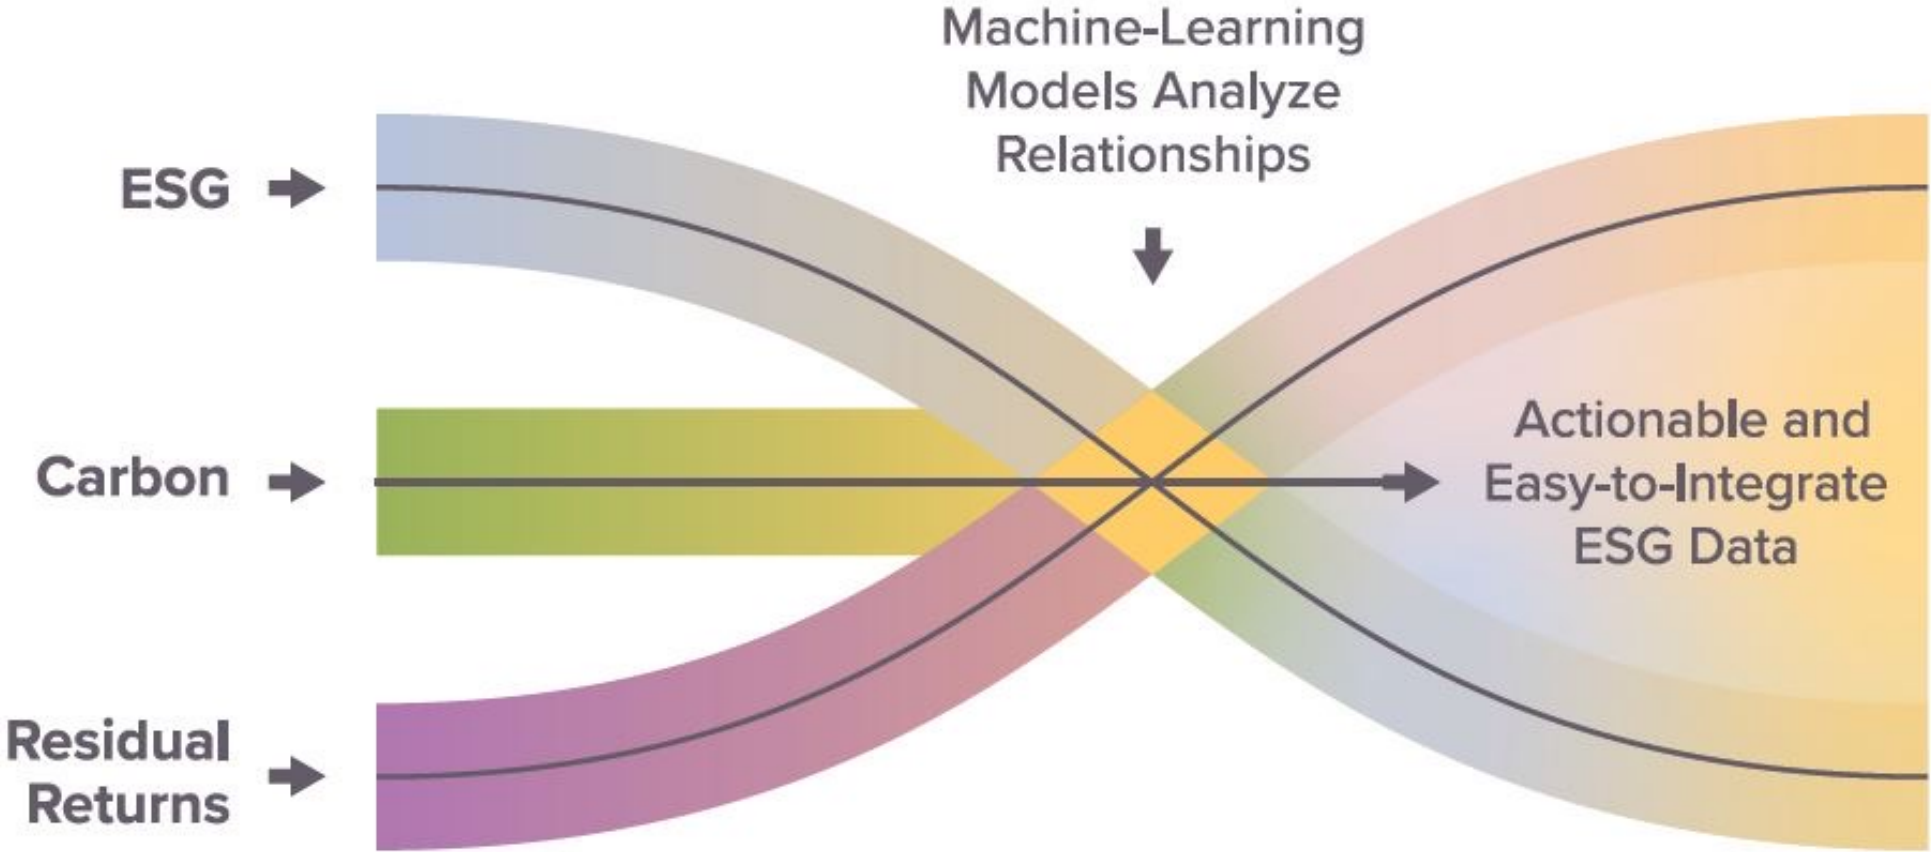

A number of companies pop out as names that will likely outperform the broader markets and their peers: NVDA, ADBE, AMAT, V, PLD, etc.

ESG & Carbon Signal Process

Defining Signals

	Description
ESG Rank	Equal-weighted score of the sub categories of E,S,G pillars
ESG Signal 1	Score based on Top 5 ESG KPIs positively correlated with residual returns
ESG Signal 2	Rank based on 12-month return model of residual returns, ESG Ranks and Deltas
Carbon Signal 3	Rank based on 12-month return model of residual returns, ESG ranks, Carbon data and their deltas

ESG & Carbon Signal Process

Comprehensive Signals

Note: Signals require 12 months of data; IPOs and Spin-offs excluded

Our Signals Lead to Better Outcomes

Equally weighted, updated quarterly. 1 yr performance is 2022.

Equally weighted, updated quarterly. Since Inception starts 7/31/2019.

Eliminate guess work and time spent deciphering which ESG factors will influence future performance for individual stocks.

Our signals determine stock performance and risk without regard for narratives.
